

Leslie Roberts has been named Moran & Goebel's March Caregiver of the Month

Leslie has worked over 22 years in hospice. She is currently a Hospice Social Worker for the DMH Home Health and Hospice Services where she finds the most rewarding part of her day is getting to know the people and their stories. "It's a privilege to work with patients and their families, making them the center of care and helping them focus on living each of their days to the fullest."

When interacting with students who are considering a career in hospice, Leslie stresses that having compassion and empathy are key in choosing a livelihood around hospice services. "There are jobs and there are careers but this is a calling."

The Caregiver of the Month program honors Leslie Roberts and the many others like her for the amazing work they do every day. Visit our website to read about Leslie and other inspiring Caregivers.
