

# Caregiver OF THE MONTH

## *Dee Hopkins has been named Moran & Goebel's June Caregiver of the Month*

"It's interesting what path the Lord takes you," reflects Dee Hopkins. Thankfully, for those she cares for, the Lord led her to her current position as Elderly Guardianship Caseworker for Catholic Charities. With her help, many in need receive the care and attention they deserve.

After 40 years in the nursing field, Dee has found a home with Catholic Charities for the past 7 years. Each day, Dee makes her "rounds," to check on the mentally and developmentally disabled elderly adults that she represents. Many times, these adults have little or no family near by who can monitor their care. Essentially taking on roles that a family member would, Dee takes the time to determine that they are receiving the medical care they deserve.

"The most rewarding part of my job is seeing someone thrive after being given a grim prognosis," comments Dee. "One of my wards was a sweet woman who had been blinded by cataracts for years. After our work with her to receive eye surgery, she can now see. Stories like this take place here all the time and it leaves us with a warm feeling."

Moran & Goebel proudly salutes Dee and those like her, who embrace the lives of others and receive joy simply from witnessing another's improved well-being. We extend our thanks and pray that others continue to follow your example.
